Q2:

```java
import java.util.ArrayList;

public class MaxValueFinder {
    public static Integer max(ArrayList<Integer> list) {
        if (list == null || list.size() == 0) {
            return null;
        }

        Integer max = list.get(0);
        for (Integer num : list) {
            if (num > max) {
                max = num;
            }
        }
        return max;
    }
}
```

———

Q3:

```java
import java.util.ArrayList;
import java.util.Collections;

public class Sorter {
    public static void sort(ArrayList<Integer> list) {
        if (list == null || list.size() == 0) {
            return; // Do nothing if the list is null or empty
        }

        Collections.sort(list);
    }
}
```
